

THE COLLECTION / S02

# Corner 7

Two perspectives, one quiet corner.

Concept visualisation. Finishes, glazing, furniture and landscaping illustrate a design direction; the proposed plan follows on page 2.

## Two views, one warm retreat

For a garden corner or landscape with two appealing aspects, and owners drawn to a darker architectural exterior.

7 m<sup>2</sup>

Enclosed footprint

2.80 × 2.50 m

Overall plan envelope

1

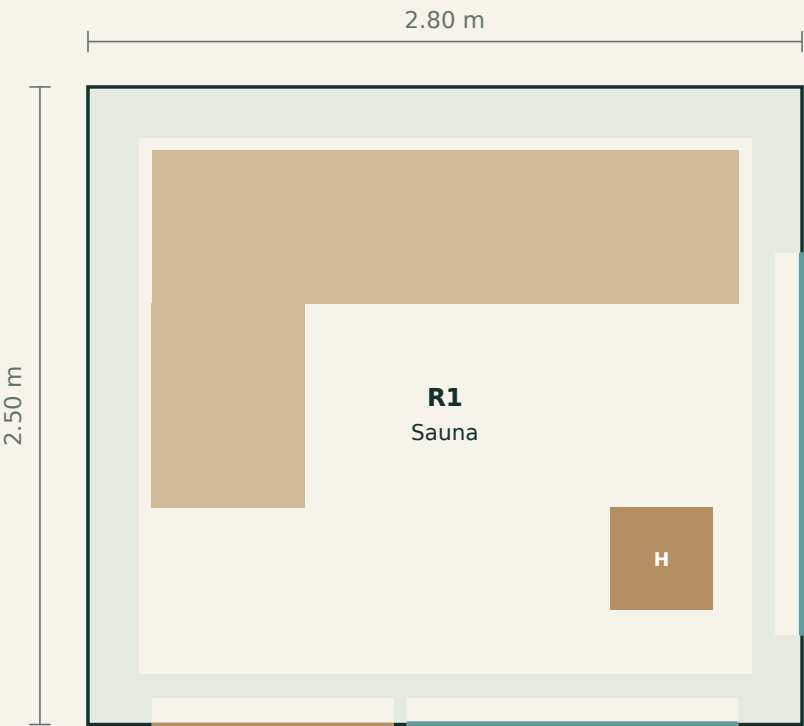

Proposed module count

Two-sided glazing opens the experience to the landscape. Review privacy from both directions when choosing the position.

SPACE & LAYOUT

# Know the space you are choosing.

Proposed dimensions for early site planning and comparison. Final dimensions and specifications are confirmed with the project quotation.

PROPOSED PLAN / NOT FOR CONSTRUCTION

Fixed glazing      Door / connection      Bench zone      H Heater marker

| ZONE | PROPOSED ROOM | CLEAR DIMENSIONS | CLEAR AREA |
|------|---------------|------------------|------------|
| R1   | Sauna         | 2.40 × 2.10 m    | 5.04 m²    |

**Clear room zones total: 5.04 m².** These are proposed rectangular floor zones, excluding walls, joints and doorway reveals. They are not a statutory measured usable-area statement.

**Proposed height:** 2.80 m overall and 2.40 m clear inside. Overall plan dimensions exclude terraces, eaves and decorative projections. Bench form, seating capacity, heater specification and final door clearances remain to be confirmed.

Locate the building around views, privacy and the route from the home. Provide additional site space for delivery, maintenance and any required setbacks.

MATERIALS & YOUR PROJECT

# Make it personal. Make it clear.

The palette below describes the proposed design direction. Your quotation defines the actual materials, equipment, finishes and included work.

|                   |                                                                                                                                                                |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Interior timber   | Thermo-aspen is the proposed sauna finish direction.                                                                                                           |
| Benches and light | Rounded bench edges, considered backrests and concealed warm lighting are design intentions. Final joinery, fittings and positions are specified in the offer. |
| Glazing           | L-shaped corner glazing. Final glass construction, framing, tint and thermal performance are selected for the sauna and destination.                           |
| Exterior          | Dark vertical timber cladding. Agree timber species, finish, weathering preference and maintenance requirements using physical samples.                        |
| Configuration     | Left or right corner-glazing orientation; Interior palette and exterior finish. Changes remain subject to technical review and the final written scope.        |

## Price and delivery

Project quotation. Prices, taxes, delivery charges and lead times are not yet published. Obtain a written, destination-specific offer before committing.

The offer should separate the sauna supply, options, transport, lifting, foundations, site assembly and utility connections. Local approvals, landscaping, decking and loose furniture are included only when listed. Delivery and installation availability must be confirmed for your location.

## Before you request an offer

- 01 Share your country, postcode, site photos and preferred position; identify the view and any privacy needs.
- 02 Describe desired use, number of users and any mobility needs. Capacity and step-free access need a reviewed layout.
- 03 Identify access for unloading, electrical supply and, for wet rooms, water, drainage and winter-use requirements.
- 04 Confirm your preferred model, finishes, budget and timing; ask for the full scope, maintenance guidance and warranty terms in writing.
